

Addressing Value-Based Medicine in Cardiovascular Disease Impact on Health Equity

10 NOV
2018

7:00 PM – 9:00 PM

Program Description: A multi-sector seminar that addresses the evolving paradigm of VBM in care and its impact on improving health equity in cardiovascular conditions.

Learning Objectives: At the conclusion of this educational program participants should be better able to understand the role of value-based medicine in cardiovascular disease prevention and the benefits to underserved populations, learn what value-based medicine means to a range of stakeholders – payers, patients and providers, understand clinical and utilization management for specific therapy areas such as heart failure, VTE, hypertension and PAD and to learn how to put value-based medicine into practice to improve health equity.

Target Audience: This activity is intended for health professionals attending the AHA conference including all healthcare professionals involved in delivery of cardiovascular care, internists, advanced practice practitioners, cardiologists, family practitioners, and nurses.

Continuing Medical Education: Association of Black Cardiologists, Inc. (ABC) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. Association of Black Cardiologists, Inc. designates this educational activity for a maximum of 2 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

This educational program is supported, in part, by Arbor Pharmaceuticals, Boston Scientific, and Cambia Health Solutions.
